|--|--|
|  <p>01/ 8kW High power storage portable X-ray machine</p> |  <p>02/ Large capacity energy storage, continuous cycle charge and discharge tens of thousands of times</p> |
|  <p>03/ Fast charge, super battery life, hundreds of shots</p> |  <p>04/ 3 exposure modes, easy to switching</p> |
|  <p>05/ Intelligent temperature management</p> |  <p>06/ 10.4 inch Super large screen</p> |

Clinical pictures

Ultra-portable, intuitive operation, exceptional imaging.

Specifications

System Requirements

Charging voltag	AC 110~220V
Power	8KW

Generator

kV range	40~125 kV
mAs range	0.1~200mAs
mA range	10~160mA
Communication mod	RS232
Exposure mod	Wired/Wireless

X-ray Tube

Focal spot	0.6/1.8mm
Anode Angl	15°

Collimator

Power suppl	AC/DC 24V±10%
Light typ	Led 5W
Light delay tim	30±2S
Illuminatio	≥160Lux
Intrinsic filterin	1.2mmAl@75KV

Mechanics parameters

Size	425 x 240 x 220mm
Weight	18kg

Package

Fast and convenient packaging, Simple transportation.
